

Since 1945, Top Quality Products for the Model Industry!

VECO's high reputation is firmly established. It results from producing *quality* items, which VECO is able to do because its staff includes world-famous model flyers. These international experts are thoroughly experienced in model designing, building, test flying, and competition. For this reason, all items are originals rather than mere copies or adaptations. Many VECO models have already won championship events before being put into production. They have been tested under the most severe field conditions and proved entirely satisfactory.

VECO's line is complete. It includes easy-to-build-and-fly kits for youngsters and highly advanced planes for adult champions... control line, free flight, and radio controlled models... engines, engine accessories, fuel tanks, spinners, wheels, and many other airplane accessories.

Whatever you want of major items, you'll find at VECO. This completeness allows modelers to obtain the best possible results through the use of mated accessories designed from the start to function together.

Each new item is developed by VECO in answer to a demand from model builders, and is kept up to date with periodic improvements. Kits are not replaced just for the sake of bringing out annual models; some have been in production for ten years. Continuity of progress is possible because VECO is a large organization of full-time craftsmen using the finest equipment, in a modern plant.

VECO will, in future, bring out new products when the need arises. Meanwhile, the line is complete, up to the minute, and proven of the highest quality. Ask your dealer for superior VECO products in the red and white check-board boxes! Leading dealers everywhere carry VECO!

"100" - "200" SERIES Glo-Plug Engines

VECO ".45" ENGINE

Designed for the larger than average model. An engine of exceptional durability. Using ball bearings to minimize wear. Exclusive high velocity venturi. Perfect for stunt with unheard of power.
GP-45 27.95

VECO ".45 RC" featuring BALL BEARINGS

A long awaited engine. Manufactured to the exacting standards of the designer, Clarence Lee. Coupled exhaust/intake throttle control to give you instant response. Prototypes have been living up to every expectation for the past two years.

GP-45RC . . 34.95

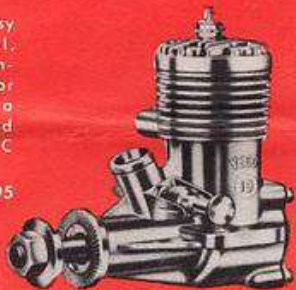

Features of the VECO ".45s"

- Leaded Steel Sleeve
- Meehanite Piston (Hardened)
- 7075-T6 Aluminum Alloy Con Rod
- Hardened and Ground Steel Wrist Pins with Brass Pads
- Two Large Ball Bearings
- Bore — .850
- Stroke — .820
- 2000 RPM Safe Idling
- Easier Starting
- Smoother & Steadier Running

VECO ".19"

Unexcelled as an easy starting, powerful, and economical engine. Designed for sport flying yet is a constant winner in R/C pylon racing.

GP-19 12.95

VECO ".29" STUNT

A natural for that ultra light T-Bird or medium sized stunt job. A fine all around sport engine. Features all new timing and venturi design.

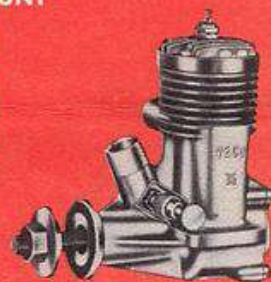

GP-29A 16.95

VECO ".35" STUNT

The ultimate in stunt. Breaks from rich to lean as the extra burst of power is needed. Extremely easy to start and long lasting. Vibration free.

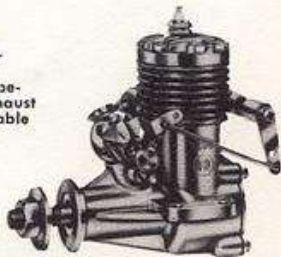

GP-35A 16.95

VECO ".19 RC"

A nimble engine with instant response from idle to full throttle without a falter! Throttle fitted for servo or escape operation. Has exhaust/throttle control, adjustable idle stop and TCC.

GP-19RC 16.95

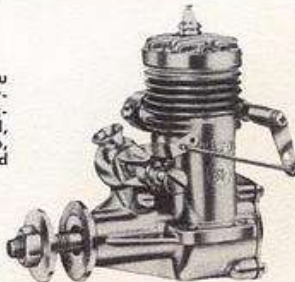

VECO Radio Control Engines

VECO R/C engines respond instantly over a wider range of RPMs than others. This flexibility is accomplished by special built-in timing, plus exclusive VECO linked throttle and exhaust controls which allow extremely accurate settings. No other model engines have this combination of features.

VECO ".35 RC"

Puts out the power you need for top R/C performance! Has exhaust/throttle control, adjustable idling stop, Temperature Controlled Clearance.

GP-35RC 20.95

VECO ".29 R"

Timed and balanced for ultra hi-speed. Newly designed crankshaft, hi economy venturi and temperature controlled clearance. Built for team racing, proto speed, combat and rat-race flying.

GP-29R 18.95

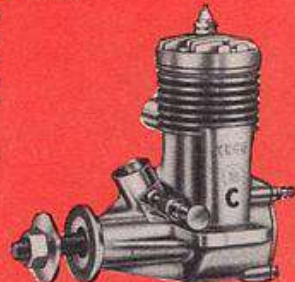

VECO Combat Engines Are Rugged

A new extra heavy heat-treated crankshaft absorbs the strains of violent maneuvers and easily handles the extra power required for out-performing and out-speeding competitors. Improved high speed porting gives top RPM and thrust to these VECO engines.

VECO ".35C" COMBAT

A fighting wildcat with power to spare... specially built to take the gruelling punishment of combat and rat-race flying!

GP-35C 18.95

Litho in U.S.A.

Control-Line Airplane Kits

Easy assembly from finely engineered plans makes VECO kits ideal for the beginner in flying models, as well as for the expert in control line competition. Finely balanced and maneuverable, VECO models respond accurately to every command

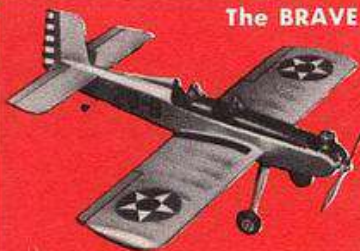

"The LITTLE T-BIRD"

C-19 \$6.95

Designed by Bob Palmer, Little T-Bird is the ultimate in .19 powered full-stunt C-line. Teamed with the powerful VECO 19, and featuring our differential flap system, it performs like its contest winning big brother, the Thunderbird. The quality kit contains performed hardware, prefab balsa, formed plastic canopy and easy-to-follow VECO plans. Wing span 46", area 435 sq. in.

The BRAVE

C-1 5.50

Stunt trainer for the novice. Easy to build and fly. Wing span 36", wing area 288 sq. in. Recommended engine: VECO ".19"

The WARRIOR

C-2 5.95

Realistic, rugged, reliable stunt with flaps. Easy to fly. Wing span 36", area 325 sq. in. Recommended engine: VECO ".19"

The CHIEF

C-3 7.95

Super stunt model with world-wide reputation for top performance. Wing span 54", area 595 sq. in. Recommended engine: VECO ".35"

C-4 5.95

Little sister to the Chief. Full span flaps for real stunting ability. Span 38", area 346 sq. in. Recommended engine: VECO ".29"

The PAPOOSE

C-5 4.50

An excellent stunt model with full span flaps, similar to the Chief. Wing span 32", area 248 sq. in. Recommended engine: VECO ".19"

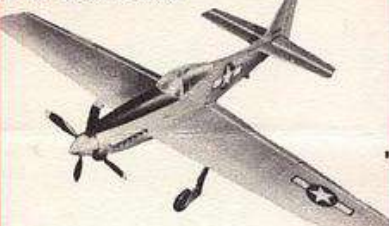

The SCOUT

C-6 2.95

Lightweight stunt trainer that's ideal for beginners. Wing span 25", area 143 sq. in. Recommended engine: .049 to .051

The MUSTANG

C-7 9.50

Semi-scale U-control model of famous "F-51". Good stunt plane and a scale beauty! Span 48", area 408 sq. in. Recommended engine: VECO ".29"

The SMOOTHIE

C-8 8.95

Bob Palmer's contest stunter for advanced aerobatics, windy weather. Wing span 52", area 501 sq. in. Recommended engine: VECO ".29" or ".35"

The HURRICANE

C-18 11.95

A semi-scale stunt ship by Bob Palmer that will delight you with its great performance. Differential flaps, wing span 54", area 590 sq. in. Recommended engine: VECO .35 Stunt

The TOMAHAWK

C-10 3.50

Easily built profile plane for combat or learning to fly. Wing span 40", area 338 sq. in. Recommended engines: VECO ".19" or ".35"

The THUNDERBIRD

C-11 10.95

Has won more national and international contests than any other! Wing span 56", area 610 sq. in. Recommended engine: VECO ".35"

The TOM-TOM

C-12 4.95

Lightweight, low cost model for learners or sport. Easy to build, Wing span 40". Gives fine performance with VECO ".19" engine.

The RENEGADE

C-14 3.50

A top combat winner in So. Calif. Simple to build from pre-fab kit. Wing Span 33", area 330 sq. in. Recommended engine: VECO ".35C"

The FIREBIRD

C-15 3.50

A Southern California contest winner designed for AMA Rat Racing. Wing span 24", area 110 sq. in. Recommended engine: VECO ".29R" or ".35C"

LITTLE TOMAHAWK

C-16 1.95

A perfect beginners airplane. Extremely easy to build and really flies. Will do a complete stunt pattern. For .049 engine.

The Little TOM TOM

C-17 2.95

An ideal airplane for beginner or expert. Fun to fly. Completely pre-fab for easy construction. Will do a complete stunt pattern. For .049 to .051 engine.

NEW VECO POWER FUEL 1 FOR ALL-AROUND FLYING

FROM THE LEADING MANUFACTURERS OF QUALITY ENGINES

• FIRST FOR PERFORMANCE • FIRST FOR QUALITY • FIRST FOR ENGINE PROTECTION • FIRST FOR QUICK STARTS • FIRST FOR ECONOMY
THE PERFECT FUEL FOR FUN FLYING... R/C... FREE-FLIGHT... C/LINE
85c/Pint \$1.50/Quart \$5.50/Gallon

VECO POWER FUEL 1 was laboratory developed and field tested to supply an all-around fuel to match the exacting requirements of Veco and other high performance glow-plug engines. Never before has a fuel provided such clean, even burning and smooth power from idle to maximum R.P.M. And no other fuel will lubricate your engine better, for long trouble free hours of operation.

Test flown and proven by the experts, including Clarence Lee and Bob Palmer, VECO POWER FUEL 1 fills your demand for an economical all-around sport flying fuel... your first tankful will convince you!

Ask for VECO products at your hobby dealer: Tops in C / Line, Free-Flight & R / C Kits • engines • accessories • glow-plugs • tanks • wheels • hardware... send 10c for illustrated catalog.
